

# VISION MODERN TECHNOLOGIES COMPANY LLC

# COMPANY OVERVIEW

Vision Modern Technologies Company LLC is a leading provider of advanced home automation and smart technology solutions in Muscat and across the Sultanate of Oman.

We specialize in transforming residential and commercial spaces into intelligent, connected environments that offer comfort, convenience, security, and energy efficiency.

With a strong focus on innovation and quality, we design and implement customized automation systems tailored to the unique lifestyle and preferences of our clients. Our solutions include smart lighting, climate control, security and surveillance, home cinema, multi-room audio, and fully integrated control systems—all accessible through intuitive interfaces.

At Vision Modern Technologies, we combine global technology standards with a deep understanding of local market needs.

Our experienced team ensures seamless installation, reliable performance, and ongoing support, making us a trusted partner for homeowners, developers, and businesses. We are committed to delivering excellence through cutting-edge solutions, premium products, and exceptional customer service.

Our goal is to redefine modern living by creating smart spaces that are efficient, secure, and future-ready.

# VISION MISSION AND MOTTO OF VMTC

## VISION

To become a leading provider of innovative smart home and automation solutions, delivering seamless technology experiences that redefine modern lifestyle  
Committed to making spaces smarter, safer, and more energy-efficient.

## MISSION

- Deliver cutting edge automation solutions tailored to client needs.
- Provide reliable scalable and user friendly systems.
- Maintain the highest standards of quality and services.
- Build long-term client relationships through trust innovation.

# LIGHTING CONTROL SYSTEM

## Smart Lighting. Smarter Living.

Our advanced **Lighting Control System** transforms the way you illuminate and manage your spaces. Designed for **residential, commercial, hospitality, and healthcare environments**, it delivers comfort, energy efficiency, and complete control—at your fingertips.

# CURTAIN AUTOMATION SYSTEM

## Effortless Control. Elegant Living.

Our **Curtain Control System** offers seamless automation of curtains and blinds, enhancing comfort, privacy, and energy efficiency. Designed for **residential, commercial, hospitality, and healthcare spaces**, it combines elegance with intelligent control at the touch of a button.

# HVAC CONTROL SYSTEM

## Intelligent Comfort. Efficient Control.

Our **HVAC Control System** delivers smart, precise control of heating, ventilation, and air-conditioning systems, ensuring optimal comfort, energy efficiency, and reliability. Designed for **residential, commercial, hospitality, and healthcare environments**, it adapts seamlessly to modern smart building requirements.

# SURVEILLANCE SYSTEM

## Smart Surveillance. Complete Peace of Mind.

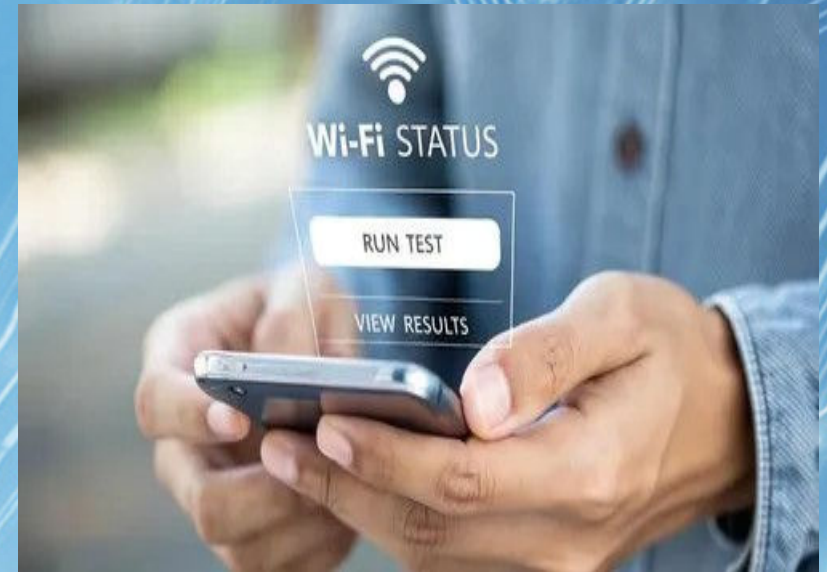

Our advanced **CCTV System** provides reliable, high-definition video surveillance to protect people, property, and assets. Designed for **residential, commercial, hospitality, and healthcare environments**, it ensures continuous monitoring, enhanced security, and easy system management.

# WI-FI SOLUTION

## **Fast. Secure. Seamless Connectivity.**

Our **Wi-Fi System** delivers high-speed, reliable, and secure wireless connectivity for modern homes and businesses. Designed for **residential, commercial, hospitality, and healthcare environments**, it ensures uninterrupted internet access with optimal coverage across all areas.

# NETWORK INFRASTRUCTURE SYSTEM

## The Backbone of Smart Connectivity.

Our **Network Infrastructure Solution** provides a robust, secure, and scalable foundation for all IT, security, and smart building systems. Designed for **residential, commercial, hospitality, and healthcare environments**, it ensures reliable data, voice, and video communication across the entire facility.

# MULTI-ROOM MUSIC & BACK GROUND MUSIC SYSTEM

**Music Everywhere. Perfectly Balanced.**

Our **Multi-Room Music & Background Music Solution** delivers seamless, high-quality audio across multiple rooms and zones. Designed for **homes, offices, hotels, retail, and hospitality spaces**, it creates the perfect ambience with centralized control and crystal-clear sound.

# HOME CINEMA SOLUTION

## Experience Cinema. At Home.

Our **Home Cinema System** delivers a true cinematic experience within the comfort of your home. Designed for **luxury villas, apartments, and private residences**, it combines stunning visuals, immersive sound, and intelligent control to transform any space into a personal theater.

# AUDIO VISUAL AUTOMATION SOLUTION

## **Clear Communication. Powerful Experience.**

Our **Audio Visual Solutions** deliver high-performance sound and visual systems designed to enhance communication, collaboration, and entertainment. Tailored for **residential, commercial, hospitality, and healthcare environments**, our solutions combine advanced technology with seamless integration and user-friendly control.

# PUBLIC ADDRESS SYSTEM

## **Clear Announcements. Reliable Communication.**

Our **Public Address System** provides efficient and reliable audio communication for announcements, paging, and emergency notifications. Designed for **commercial, hospitality, healthcare, educational, and public environments**, it ensures clear sound coverage and dependable operation across all areas.

# SMART DOOR LOCK SYSTEM

## **Secure Access. Smart Convenience.**

Our **Smart Door Lock** combines advanced security with modern convenience, offering keyless, reliable, and intelligent access control for **homes, offices, hotels, and commercial spaces**. Designed to enhance safety while simplifying daily access.

# IP TELEPHONE SYSTEM

**Smart Communication. Reliable Connectivity.**

Our **IP Telephone System** delivers modern, flexible, and cost-effective voice communication over IP networks. Designed for **residential, commercial, hospitality, and enterprise environments**, it ensures clear voice quality, advanced features, and seamless scalability.

# INTERCOM/VIDEO DOOR PHONE SOLUTION

## Clear Communication. Secure Access.

Our **Intercom Solution** provides reliable audio and video communication for secure and convenient access control. Designed for **homes, apartments, offices, commercial buildings, and gated communities**, it enhances safety, communication, and visitor management.

# ACCESS CONTROL SYSTEM

## Secure Entry. Complete Control.

Our **Access Control System** provides intelligent and reliable management of entry and exit points, enhancing security while offering flexible access management. Designed for **residential, commercial, hospitality, and healthcare environments**, it ensures controlled, monitored, and secure access at all times.
